

BodyCell**Fast** *The fastest treatment against cellulitis blemishes.*

Ultrasound

Professional cosmetics

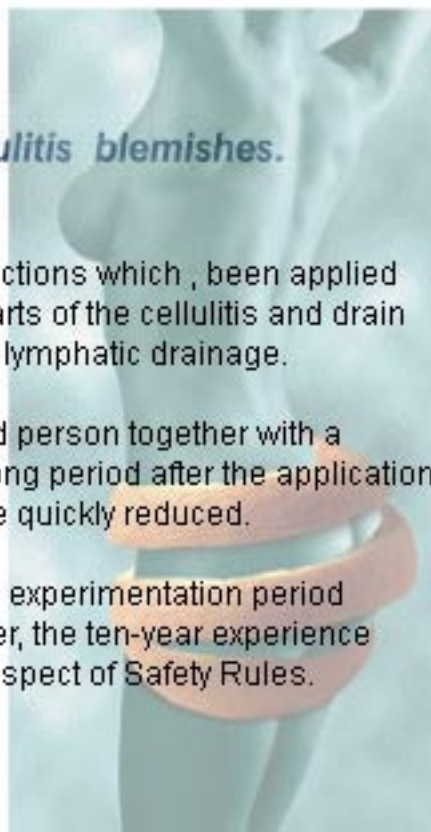

Near Infrared Massage

The BodyCell FAST equipment uses four different functions which, been applied in sequence, allow to break deeply into the fibrous parts of the cellulitis and drain away all the remaining parts through the channels of lymphatic drainage.

The effect is immediately perceivable from the treated person together with a sense of relief and agility. This feeling will last for a long period after the application and after each session the cellulitis blemishes will be quickly reduced.

The BodyCell Fast method is the final result of a long experimentation period made inside the best Beauty Centres in Italy. Moreover, the ten-year experience of Laserlife in this field **guarantees** reliability and respect of Safety Rules.

Soft 908

Aesthetical treatment of the face

Soft 908 It is an equipment studied for the face. The software of this machine includes a wide and tested range of application protocols for face treatments: wrinkles, bags under eyes, tonification are the main rejuvenating actions of this equipment.

Soft 908 is equipped with two different probes having different sizes: one probe has been studied for precise applications as eyes contour or little scars on the face. The other one has a major dimensions and there is also the possibility to change the size of the light emission. Doing that, this probe can be used for various face applications as well as breast hardening treatment.
